TRANSLATION NOTES:

Regarding the name translations last chapter, there are few changes to make so as to avoid losing these small, interesting details.

SELUS -> SERVUS (SLAVE)

Servus is Latin for slave. As you will see in this chapter, this connotes to the slave status of the wolf race, explaining Sigre's need for validation from his god.

SHIGURE -> SIGRE

Until an official romanization comes out, we'll be using this. It's the only one with similar etymology we could come up with.

KATARA (CURSED SNAKE) - Katara is Greek for curse

We've updated Chapter 1 on the Drive and on Mangadex, if you'd like to go back and check. Thanks for reading and we apologize for the mishaps!
